Long Methodology Statement

Effective sample size after weighting applied: 1003

Margin of error associated with effective sample size: ± 3.1

Variables used in weighting **Weighting method used:** Age x gender x location, Age x education, Rim weighting

Full question text, responses categories and randomisation: See below

Proportion of landline/mobile completed interviews: Not applicable

Source of online sample: Selected from previously recruited online panels of research participants to fill quotas loosely based on weighting frame and past vote

Positioning of voting intention questions in questionnaire? Immediately after demographics

2PP calculation method: Calculated according to preferences flows at previous elections

How were undecided voters handled? Undecided respondents who answered “don’t know” were asked a leaner question which also included a “don’t know” option. Those who answered don’t know were excluded from published voting intention figures but not from the survey. 8% were thus excluded from published voting intention figures.
