URL of Long Methodology statement Is voting intention published?

<https://www.pyxispolling.com/apc/>

Long Methodology Statement

Effective sample size after weighting applied: 330

Margin of error associated with effective sample size: $\pm 4.5\%$ (90% confidence level)

Variables used in weighting & weighting method used: Age x gender x location, previous vote, Rim weighting

Full question text, responses categories and randomisation: See below

Proportion of landline/mobile completed interviews: All interviews conducted by mobile

Source of online sample: Not applicable

Positioning of voting intention questions in questionnaire? Immediately after demographics

2PP calculation method: N/A

How were undecided voters handled? Undecided respondents who answered “don’t know” were asked a leaner question which also included a “don’t know” option. Those who answered don’t know were excluded from published voting intention figures but not from the survey. 16% were thus excluded from published voting intention figures.

Full Text of Published Questions
