Methodology Statement: Newspoll
Publication date: 6 November 2023

Short Methodology Statement

Research company: Pyxis Polling Pty Ltd
Client commissioning the research: The Australian, News Corp Australia
End client: The Australian, News Corp Australia
Fieldwork dates: 30 October – 3 November 2023
Mode of data collection: Online recruited from research panel
Target population: Eligible Australian Voters
Sample size: 1220
Australian Polling Council compliant? Yes
URL of Long Methodology statement Is voting intention published?
https://www.pyxispolling.com/apc/

Long Methodology Statement

Effective sample size after weighting applied: 1063
Margin of error associated with effective sample size: ±3.0
Variables used in weighting Weighting method used: Age x gender x location, Age x education, Rim weighting
Full question text, responses categories and randomisation: See below
Proportion of landline/mobile completed interviews: Not applicable
Source of online sample: Selected from previously recruited online panels of research participants to fill quotas loosely based on weighting frame and past vote
Positioning of voting intention questions in questionnaire? Immediately after demographics
2PP calculation method: Calculated according to preferences flows at previous elections
How were undecided voters handled? Undecided respondents who answered "don't know" were asked a leaner question which also included a "don't know" option. Those who answered don't know were excluded from published voting intention figures but not from the survey. 10% were thus excluded from published voting intention figures.
